

Nifty50

Closing price	R1	R2	S1	S2
24,231.30	24,400	24,700	24,000	23,800

- Nifty 50 opened gap-up The index then continued to rally, hitting a high of 24,280, maintaining a very tight low of 24,145, and closing strong at 24,231
- Nifty 50 has now achieved a critical structural milestone — closing at 24,231 above the 50 EMA at 24,189 for the first time since the breakdown in late 2025.
- The index has also cleared the stubborn 24,000–24,200 resistance band on a closing basis, flipping it into support.
- Nifty 50 RSI at 55.86 is now firmly in bullish territory — the strongest reading since before the February breakdown began.

Bank Nifty

Closing price	R1	R2	S1	S2
56,301.95	57,000	57,500	55,800	55,000

- Bank Nifty similarly gapped up sharply opening at 56,343 — a gap of nearly 738 points. It hit a high of 56,786, held a tight low of 56,109, and closed at 56,301
- Like Nifty, the gap was completely held and the low barely undercut the open, confirming one-directional bullish momentum with zero meaningful selling pressure during the session.
- While the close above the 50 EMA is constructive, the real structural test is a clean close above 57,100 which would confirm full EMA reclaim.

Intraday call

Stock Name	Buy In Range	SL	TGT
ANGELONE	299-300	292	314

Angel One is showing a strong bullish breakout from a consolidation range, supported by a wide-range bullish candle and significant volume expansion. Price has reclaimed key moving averages, indicating a shift in short-term trend strength. The structure reflects higher lows and strong buying pressure. RSI is in overbought territory, signaling momentum strength but also caution for pullbacks. Intraday bias remains positive, with price action favoring continuation if momentum sustains with volume support.

Delivery call

Stock Name	Buy In Range	SL	TGT
GRANULES	650-655	625 (closing basis)	700

Granules India is showing a bullish breakout from a symmetrical triangle consolidation, supported by strong price expansion and follow-through buying. Price is trading above key moving averages, indicating trend alignment and strength. The formation of higher highs and higher lows confirms an ongoing uptrend. RSI is trending in bullish territory, reflecting improving momentum without extreme conditions. Volume participation has increased during the breakout, suggesting accumulation, making the setup favorable for positional continuation.
