

## Nifty50

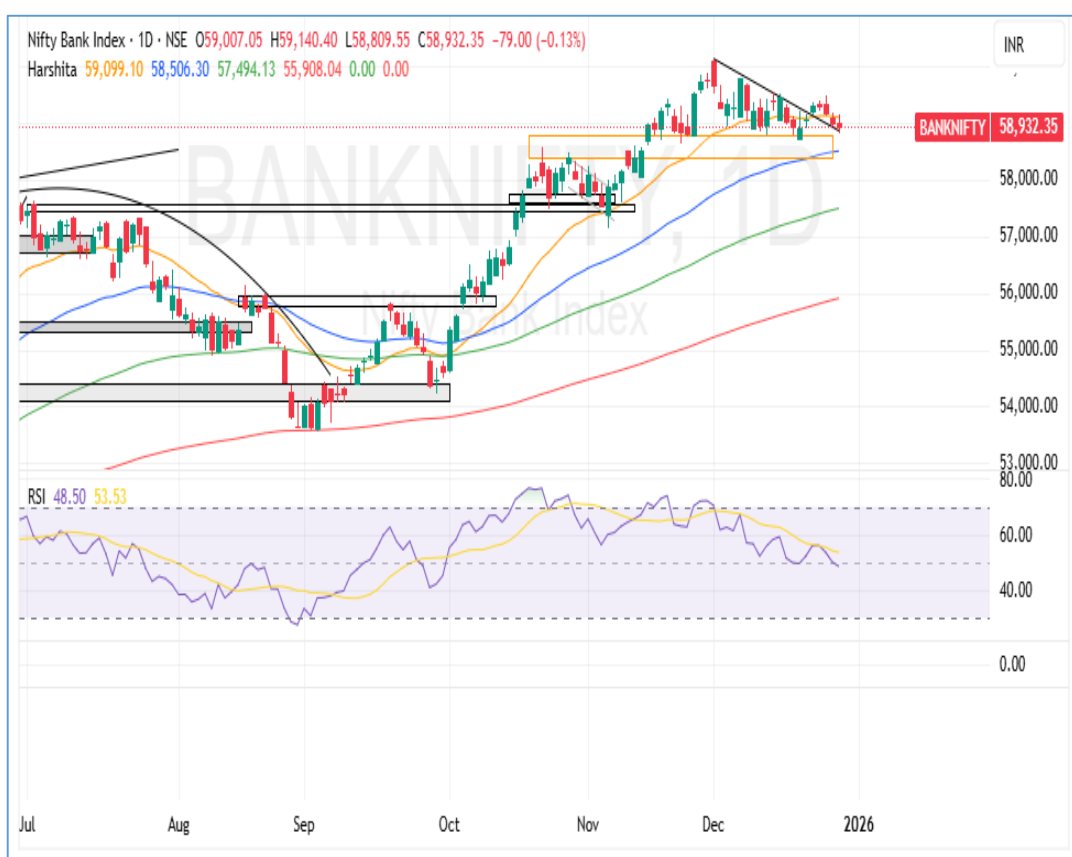

Closing price	R1	R2	S1	S2
25942.10	26,050	26,100	25,800	25,700

- Nifty closed slightly lower at 25,942, slipping below recent swing levels and reflecting short-term consolidation after the prior rally.
- The index continues to trade above the 50 and 100 EMAs, indicating that the broader trend remains positive, though momentum has moderated. The short-term EMAs have flattened, suggesting a phase of digestion rather than trend reversal. RSI near 49 points to neutral momentum, with no immediate overbought or oversold signals.
- On the downside, 25,800–25,700 remains an important support zone, followed by stronger support near 25,600. On the upside, 26,050–26,100 acts as immediate resistance; a decisive close above this zone is required to resume upside traction, else consolidation may persist.

## Bank Nifty

Closing price	R1	R2	S1	S2
58932.35	59,300	59,600	58,500	58,300

- Bank Nifty closed marginally lower at 58,932, continuing its phase of consolidation after the recent uptrend.
- The index remains comfortably above key moving averages, with the 20 and 50 EMA providing immediate support, suggesting the broader bullish structure is still intact despite near-term cooling.
- Price action shows a mild downward-sloping consolidation near highs, indicating profit booking rather than aggressive distribution. RSI around 48–50 reflects neutral momentum, pointing to time-wise consolidation.
- On the downside, 58,500–58,300 is a crucial support zone, followed by 57,800. On the upside, 59,300–59,600 acts as immediate resistance; a decisive close above this zone can revive upside momentum and open the door for a retest of recent highs.

Intraday call

Stock Name	Buy In Range	SL	TGT
TATACONSUM	1195 – 1203	1176	1231

- Tata Consumer Products has witnessed a bullish breakout from a symmetrical triangle on the daily chart, signaling a continuation of the prevailing uptrend. The stock has closed near the highs with a strong bullish candle, supported by healthy volumes, indicating renewed buying interest. Prices are comfortably trading above key short- and long-term moving averages, reinforcing the positive trend structure. The RSI is holding above the 60 mark and trending upward, reflecting strengthening momentum.

Delivery call

Stock Name	Buy In Range	SL	TGT
JAYNECOIND	86.15– 87	82.70 (closing basis)	93.10

- Jayaswal Neco Industries has delivered a decisive breakout on the daily chart, closing near the day's high with a strong bullish candlestick, indicating aggressive buying interest. The breakout is supported by a sharp surge in volumes, reflecting strong accumulation by market participants. The stock is trading well above its short- and long-term moving averages, confirming a solid bullish structure and a clear shift in trend. Momentum indicators are also supportive, with RSI holding in bullish territory and moving higher, signaling sustained strength..
