

Nifty50

Closing price	R1	R2	S1	S2
25938.85	26,000	26,200	25,800	25,700

- Nifty 50 ended nearly flat, closing at 25,938.85, reflecting continued consolidation after the recent uptrend.
- The index is holding above the 50-EMA, with the short-term EMAs acting as dynamic support, suggesting the broader structure remains constructive despite the lack of momentum. Price action shows a tight range formation near 25,900–26,000, indicating pause and digestion of gains rather than distribution. RSI near 49 signals neutral momentum and supports a time-wise correction.
- On the downside, 25,800–25,700 remains a key support zone, while a decisive close above 26,000 could re-ignite upside momentum and open the path toward 26,200–26,300 in the near term.

Bank Nifty

Closing price	R1	R2	S1	S2
59171.25	59,400	59,600	58,800	58,600

- Bank Nifty closed higher at 59,171.25, extending its consolidation phase after the recent rally.
- The index continues to trade above all key moving averages, with the 20- and 50-EMA providing immediate support, keeping the broader trend constructive.
- Price action reflects a tight consolidation within a downward-sloping channel, suggesting a pause after strong gains rather than trend reversal. RSI near 53 indicates neutral-to-positive momentum, with no signs of exhaustion.
- As long as Bank Nifty sustains above 58,800–58,600, the structure remains intact, and a decisive breakout above 59,400–59,600 could pave the way for a fresh leg higher toward the 60,000 zone in the near term.

Intraday call

Stock Name	Buy In Range	SL	TGT
CANBK	154 – 155	151.60	158.60

- Canara Bank has confirmed a bullish breakout on the daily chart, closing above the recent resistance zone near ₹150 with strong volume participation, indicating fresh accumulation. The stock is trading comfortably above its short- and medium-term moving averages, reflecting a sustained uptrend. Higher highs and higher lows structure remains intact, signaling strong bullish momentum. RSI is placed above 60 and turning upward, which suggests strengthening buying pressure without entering extreme overbought territory.

Delivery call

Stock Name	Buy In Range	SL	TGT
TATASTEEL	175-177	168 (closing basis)	190

- Tata Steel has witnessed a decisive breakout above the falling trend line of the descending channel on the daily chart, signaling a potential trend reversal. The stock is trading above its short-term moving averages and holding firmly above the rising long-term trend line, indicating improving price structure. Volumes have picked up on the breakout, supporting bullish intent. RSI has moved above 60 with a positive crossover, reflecting strengthening momentum.
